## ABOUT

Goldmyer is a minimally developed wilderness area surrounded by Forest Service land and Alpine Lakes Wilderness. Goldmyer offers visitors access to old growth forest, waterfalls, and a crystal clear geothermal hot spring. Our stewardship policies, established in 1976, enable us to preserve the hot springs and surrounding property for today's visitors and future generations. Access is limited to 20 people per day to preserve the wilderness environment and avoid overuse. All visitors are asked to follow our minimum impact rules.

**Our Caretakers live on-site, do routine property checks and are available for any questions or concerns during your visit.**

- The Goldmyer property is open 9:00am - 9:00pm everyday in all weather conditions - rain, shine, or snow. Check [Weather Forecast](#) and the [Access Report](#) prior to your visit.
- Reservations are highly recommended. Maximum of 8 people (including children) per reservation. Cannot combine reservations to make a group larger than 8.
- Busiest time is 11:00am to 3:00pm. Arriving earlier, later, or camping on-site offers a quieter soaking experience.
- Adults are responsible for children (17 years and under) in their group and must accompany children at ALL times.
- Goldmyer is *swimsuit-optional* at the hot spring pools. On 'Shared Use' days you will be sharing the pools with other visitors, some of whom may choose to be nude.

Summers can be warmer - bring plenty of water.

# Goldmyer Hot Springs – Directions

GPS COORDINATES | N 47.48540 W 121.3894

You may use GPS to get to Exit 34, but use these directions to reach the trailhead and Goldmyer.

We do not recommend using hiking apps as they send you on longer, more challenging routes over peaks and/or using primitive trails. Goldmyer cannot provide directions for other trails/routes.

If you approach Goldmyer via the PCT loop, Snow Lake, Middle Fork Trail, Red Pass, etc. you will have to walk through Burntboot Creek on the southside of our property - there is no footbridge. The water in Burntboot can be swift and deep. We do not recommend attempting that crossing during rainy or snowmelt seasons.

## TRAVEL TIME

Travel time is approximately 4-5 hours *one-way* (driving and hiking combined) from the Seattle/Tacoma area.

- Driving: Seattle to I-90 Exit 34 - approx. 45 minutes (without interruption) then from Exit 34 to Dingford Trailhead - approx. 1-2 hours (depending on season).
- Hiking: Dingford Trailhead to Goldmyer - 1.5 to 3 hours (depending on conditioning and pack weight).
- Biking: Dingford Trailhead to Goldmyer - 45-90 minutes (depending on conditioning and pack weight).

## DRIVING DIRECTIONS

- From 1-90, use Exit 34 (468th Ave SE).
- Turn north off the freeway exit (left if driving east from Seattle, right if driving west).
- Shortly after the truck stop, turn right onto Middle Fork Road.
- At the fork in the road stay to the right (you will be using the other fork on your way home).
- After 11.5 miles at the Middle Fork Campground, the pavement ends and you will drive across the Taylor River bridge - a single lane concrete bridge.
- After the bridge and next to the Garfield Ledge Trailhead (and outhouses), take a sharp right on Forest Service Road 5620 and head uphill towards the Dingford Trailhead. *This hill can be difficult for low clearance vehicles (sedans) and rear wheel drive trucks with no weight in the back. If there is snow or ice; it is dangerous to drive this section without snow chains.*
- Drive for about 6 miles on this one-lane rocky and potholed gravel road. *Anticipate rocks, tree debris, drainage dips or washouts, and encroaching brush. It will be slow going.*
- Arrive at the Dingford Trailhead: It will open up into a parking area with a big metal gate at the far end.
- Park in a designated spot and do not block the gate.

## HIKING / BIKING ROUTE

The Dutch Miller Gap Trail (previous Forest Service road) is about 5 miles each way, and runs along the north side of the Snoqualmie Middle Fork River. The trail is open to hikers and mountain bikes all year. *Motorized vehicles are not allowed beyond the gate for visitors - including motorcycles, dirt bikes, four-wheelers, snow mobiles, ATVs, etc.*

- Pass through the big metal gate at the far end of the parking lot. You will shortly cross a bridge over Dingford Creek Falls confirming you are on the correct route.
- At 1 mile from the gate you will pass ‘Sky Rock’, a huge boulder that fell from the cliffs of Price Mountain in 2020.
- At 1.9 miles from the gate you will come to a fork; use either way as they rejoin. *Use the left fork if the right fork is flooded.*
- At 4.5 miles from the gate you will come to another fork at a noticeably wider spot in the roadbed. Note the ‘Goldmyer’ sign high in a tree pointing to the right. Head down the right fork towards the river.
- 700 feet down the right fork you will come to a footbridge over the (Snoqualmie Middle Fork) river. Cross it and turn right onto the Middle Fork trail.
- In 200 feet turn left at a ‘T’ trail junction and continue 1/4 mile to arrive at the Caretaker’s cabin for Check-in (or inquiry for availability).
